# Commercial Exit Door Break-Ins

## Historical Challenges & Increasing Risk

- Burglars repeatedly attack facility perimeters
- Side and back-of-building exits are targeted since traditional security doors offer limited protection
- Social unrest and looting have changed physical security requirements
- *More attackers, more time available to them, & unpredictable attack points*

## QMI's High Security Door System Provides Nearly Impenetrable Protection

- Jewelry • Pawn • Liquor • Electronics
- Gas Stations • Pharmacies • Cannabis

Industry-first, retrofitting  
exit door solution stops  
would-be burglars in  
their tracks

Patent pending
