

## T35 ODS TUBULAR MOTOR

OzRoll is pleased to introduce the **T35 DC Tubular Motor** to our existing range of 12V DC motors

**P / N: 15.131.010**

The T35 offers power equivalent to 35nm which is capable of lifting a roller shutter up to 52kg in weight making it ideal for use with our

Sentry BAL 40 rated slat. It has been designed to be used with either the E-Port 18650 Control or with the old style ODS Control 10.

This motor has an enormous output despite the compact dimensions.

### Specifications

Nominal Torque Rating	35 Nm
Nominal Voltage	12V DC
Nominal Speed	9 RPM
Max Operating Current	4.9 Amps
Diameter	45 mm
Length	590 mm
